Pipe & Fire Sprinkler Boxings

Our two-sided 'L' shaped and three-sided 'U' shaped pipe boxings are among the most popular products of their type and have been used for more than 20 years in social housing, education and health, as well as retail, commercial and leisure applications across the UK.

Manufactured from high quality 9mm thick FSC® certified moisture resistant material, supplied as standard with an easy to clean white painted finish, our versatile pipe boxings are used to conceal all types of plumbing services including fire sprinkler systems, heating and radiator pipework, as well as heat recovery and extraction ducting.

- Versatile solutions to cover most pipework installations
- Comprehensive range of profile sizes and lengths
- Manufactured from FSC® certified moisture resistant material
- Non-standard profiles and lengths available
- Undercoat only option for on-site decoration
- Full range of dedicated accessories is available

Flame Retardant Sprinkler Boxing

In addition to our standard fire sprinkler pipe boxing, UK Boxings' flame retardant sprinkler boxing (FRSB) provides the same aesthetic finish, but is designed for use where flame retardant boxing is required for either new or retro-fit installations.

Available as two-sided 'L' shaped and three-sided 'U' shaped profiles, our FRSB products are manufactured from 9mm thick Euroclass B compliant MDF material and has a white painted finish, which maintains the board's flame retardant properties.

- Designed for flame retardant fire sprinkler boxing projects
- Euroclass B compliant and FSC® certified material
- White painted finish
- Manufactured to the exact project dimensions
- Available in 2440mm lengths in 'L' and 'U' shaped profiles
- Range includes dedicated accessories

Boiler Pipe Boxings

Manufactured from high quality, 9mm FSC® certified moisture resistant material and coated with an easy clean white painted finish, our boiler pipe boxings conceal boiler pipework and flues easily to help improve aesthetics and safety.

Durable and simple to fit, they're ideal for multiple installations in social housing heating upgrade programmes, as there's no on-site fabrication or painting, which save time and can reduce installation costs.

- Quick and easy to fit - conceals boiler pipes and flues
- Choice of width and depth options
- Manufactured from FSC® certified moisture resistant MDF
- 485mm height or 2440mm lengths for cutting on-site
- Non-standard sizes available on request
- Undercoat only option for on-site decoration

Metal Pipe Boxings

Our tough and durable metal pipe boxings are designed primarily to provide a weatherproof shield for pipework or other services located on the outside of a building, including gas supply pipes, distributed heating system or ground source heat pump pipework and electrical services.

Manufactured to individual project dimensions from 2mm or 3mm thick aluminium, the 'L' shaped or 'U' shaped casings are easy to install on-site and can also incorporate access panels or lockable doors, which provide a simple solution for inspection and maintenance while retaining security.

- Manufactured from tough and durable aluminium
- 'L' shaped or 'U' shaped profile options
- Wide range of RAL powder coated finish options
- Can incorporate access panels and lockable doors
- Versatile solution for all external boxing projects
- Weatherproof protection for pipework and services

Column Casings

Our column casings range provides an excellent decorative and aesthetic solution for concealing unsightly structural steelwork or concrete supports. In addition to our FSC® certified plywood core casings, which incorporate a smooth MDF surface, the range also includes aluminium, glass reinforced plastic (GRP) and glass reinforced gypsum (GRG) options.

The wide choice of materials and finishes enables us to meet a broad range of project requirements for use in a range of sectors including, commercial, leisure and retail, as well as education including universities, academies, schools and colleges.

- Product range covers interior and exterior applications
- Choice of material options to meet project specifications
- Finishes include plain; laminated; PPC and Gel-coat
- Ply/MDF casings available from 250mm - 600mm diameter
- Ply/MDF casings supplied in standard 3000mm length
- All non-ply/MDF casings are manufactured to order

Bespoke Manufacture & Finishing Service

When you need a bespoke item manufactured from MDF or require a specialist finishing service for your own products, UK Boxings has more than 20 years experience in manufacturing and specialised finishing.

Our lacquer and paint Finishing Service is ideal for companies without an in-house spray finish system. If you have a bespoke product that needs manufacturing, or a product that needs an expert professional finishing touch, call UK Boxings.

Bespoke manufactured products include:

- Display units & cabinets
- Unique lighting rafts and windowsills
- Lighting and curtain pelmets
- Shelving and skirting boards
- Shop fitting storage and display

Professional finishing:

- Lacquers - gloss, matt and tinted
- Paint - all finish types and colours
